Overall Business Recommendations

Prioritize Month-to-Month retention: Month-to-Month customers have the highest churn rate at 20.6% and represent approximately 53% of current MRR, making this the highest-priority retention segment.

Encourage AutoPay adoption: Customers without AutoPay have a 20.0% churn rate vs. 12.2% with AutoPay. Test AutoPay enrollment incentives and measure whether adoption is associated with improved retention.

Monitor churn monthly: Historical monthly churn has fluctuated without a sustained trend. Track Churn Rate and Churned MRR together to identify meaningful changes in customer retention and financial exposure.
